Joan Laureano, designer of Krystalos and Devozioni by Krystalos, discussing a design with Father Luis Norberto Correa, one of our experts and advisors.

**Devozioni by Krystalos tells the stories of faith and surrender to God of different historical characters and Christian devotions. Each piece is more than a beautiful fashion accessory: it is a conversational piece and an evangelization tool. In Krystalos you will always find a piece that identifies with your very own life mission.**

## Stories of Faith and Devotion

Our rosary bracelets encapsulate in each of its elements the stories of faith and devotion of different important historical figures of the Church. Each story is studied and designed so that each piece has a meaning in accordance with the facts, and is then verified by 2 priests (or more) with specialized education in theology and canon law, both from Rome and the USA. Each design includes a historical explanatory booklet of the Saint or the corresponding devotion (as shown above) IN ENGLISH AND SPANISH, so that each person receives, not only a beautiful rosary, but a conversation piece and an evangelization tool. All of the designs are made of semi-precious stones, the metals are enameled and the medals are ORIGINAL Italian.
